

15th International Symposium on New Trends in Audio and Video

September 25-27, 2014

The 15th International Symposium on New Trends in Audio and Video will be held on September 25-27, 2014, in Wrocław. The Symposium is organized by the Polish Section of the Audio Engineering Society in cooperation of the Chair of Acoustics and Multimedia, Wrocław University of Technology. The organizers cordially invite sound engineers, music producers, acousticians, and specialists in sound reinforcement, scientists who deal with sound engineering, sound recording and related areas, students, and employees of the audio industry to participate in the Symposium. The Symposium program will include lecture sessions and workshop presentations. Papers accepted by the Scientific Committee of the Symposium will be presented and published in conference proceedings on CD-R.

Conference language

Sessions will be in Polish. Papers may be presented in English but translation is not provided.
